7.2 Rib Panel

Due to its 1 ½" deep profile, the 7.2 Rib Panel has excellent spanning capabilities, making it an economical choice with a high strength to cost ratio.

- Material: 24ga steel standard, other gauges may be available. Available in perforated aluminum.
- Length: Up to 30'. Extra charges may apply for lengths shorter than 4'.
- Attachment: Exposed fasteners, color matched to panel.
- Finish: Factory applied Kynar.
- Colors: Choose from standard color chart.
- Warranty: 20 years.
- Installation: Orient vertically or horizontally. Color matched exposed fasteners.
