## Corrugated Panel

Due to its shallow profile, the Corrugated Panel has limited spanning capabilities, but is an excellent and economical choice for horizontal and vertical applications where the supports are closer together.

- Material: 24ga steel standard. Other gauges may be available. Available in perforated aluminum.
- Length: Up to 30'. Extra charges may apply for lengths shorter than 4'.
- Attachment: Exposed fasteners, color matched to panel.
- Finish: Factory applied Kynar.
- Colors: Choose from standard color chart.
- Warranty: 20 years.
- Installation: Orient vertically or horizontally. Color matched exposed fasteners.
