

## Perforated Panel Patterns

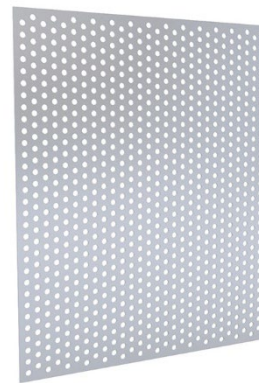

Perforated Panels are a popular choice for many projects, adding fantastic elements of texture and depth. Many of our standard panel offerings are available perforated. Our standard Perforation Patterns are 1/8" hole @ 1/4" stagger and 1/8" hole @ .325" stagger. Other patterns are available upon request.

- Material: .032, .040 and .050 aluminum (.040 is our most commonly used)
- Length: Up to 30'. Extra charges may apply for lengths shorter than 4'
- Attachment: Exposed fasteners
- Finish: PVDF (70% polyvinylidene)
- Colors: Choose from standard color chart
- Warranty: 20-year limited
- Installation: Orient vertically or horizontally

Custom perforation patterns are available. Contact RoofScreen with design ideas.
